### INTERNATIONAL WORKSHOP

Hybrids are a clear architectonic strategy to face complexity in contemporary times. They should meet the existing urban framework and proposal for mixed use program and at the same time give a sensual structure for the complex functions of the hybrid as a public and urban building.

Students will propose an urban hybrid which acts as a public-cultural interface and activator - an urban hub - for the area of Besós and Barcelona.

It has to provide cultural and public facilities for the inhabitants of the area and at the same time for the UPC and international cultural scene of Barcelona. At the same time, the hybrid.
