

workshop with NTNU

MAKING IS THINKING invites ETSAB students to join a team of Master students from Norway and construct a space for a performance in El Raval, 14-19 March 2016.

Making is Thinking is a studio at the Faculty of Architecture and Fine Art, NTNU, Trondheim, Norway, www.ntnu.edu/transark/wp1

activitat INTERNACIONAL WORKSHOP

“Making is thinking” * addresses a much needed re-examination and redescription of how to understand and develop skills connecting the body and mind. The workshop addresses a “hands-on” experience in an existing building in el Raval, Barcelona, in the overlap between artistic and architectural methods. “Doing” as a source of new knowledge: **making is thinking**.

The traditional design studio cannot mimic the embodied experience that is achieved through a “live” situation of making. The students will gain a knowledge that not only covers professional and academic skills, but also contextualises tacit knowledge.
