ICT services for students

1. [UPC e-mail account](#)
2. [Network connection](#)
3. [Software](#)
4. [Cloud services: Google Workspace and Office 365](#)
5. [Computer rooms](#)
6. [Practicals room](#)
7. [Remote access to the PCs in the classrooms](#)
8. [UPC Estudiants app](#)
9. [+info](#)

UPC e-mail account

[UPC e-mail accounts](#) [in Catalan] are **Gmail** accounts. All students have a **UPC user** account from the moment they enrol, with the following address

username@estudiantat.upc.edu

- The e-mail accounts are managed by Google, but authentication takes place at the UPC, with the intranet username and password—the same username with which you access all of the UPC's services (e.g. WiFi network, intranets, ATENEA, etc.)
- Accounts can be accessed from <https://correuv3.upc.edu> or via Gmail

Network connection

All ETSAB facilities have **WiFi coverage**. Two networks are available:

- [Eduroam](#) - for the entire educational community, accessed with your **UPC username**
- UPCGuest - temporary-access network for visitors

[UPClink service](#) [in Catalan] (Virtual Private Network, VPN)

This service provides secure access to the UPC network and its resources when you log on from **outside the UPC** on any device.

Software

- The UPC has various [software distribution agreements](#) [in Catalan] directed at all enrolled students.
- The ETSAB also has agreements for **specific software in the field of architecture** that meets teaching needs on the degrees taught at the School and is installed on the computers in the classrooms.

[List of software installed in computer rooms](#)

- You can install all programs that are free or open source on your personal computer, as well as those for which the manufacturer has a specific offer for students. For some programs there is the option of a temporary trial version.

Cloud services: Google Workspace and Office 365

- [Google Workspace](#) [in Catalan]

The UPC account enabled in Google Workspace for all students facilitates distance learning (with your UPC e-mail address):

username@estudiantat.upc.edu

- [Office 365](#) [in Catalan]

All students also have a Microsoft account that provides access to many online Office 365 tools:

username@office365.estudiantat.upc.edu

This address does not mean you have an e-mail account. All e-mail is redirected to the official UPC e-mail account, which is Gmail.

Computer classrooms

Computer classrooms A-S2 and A-S3 are **designed for classes** that require the use of specific software and are therefore equipped with:

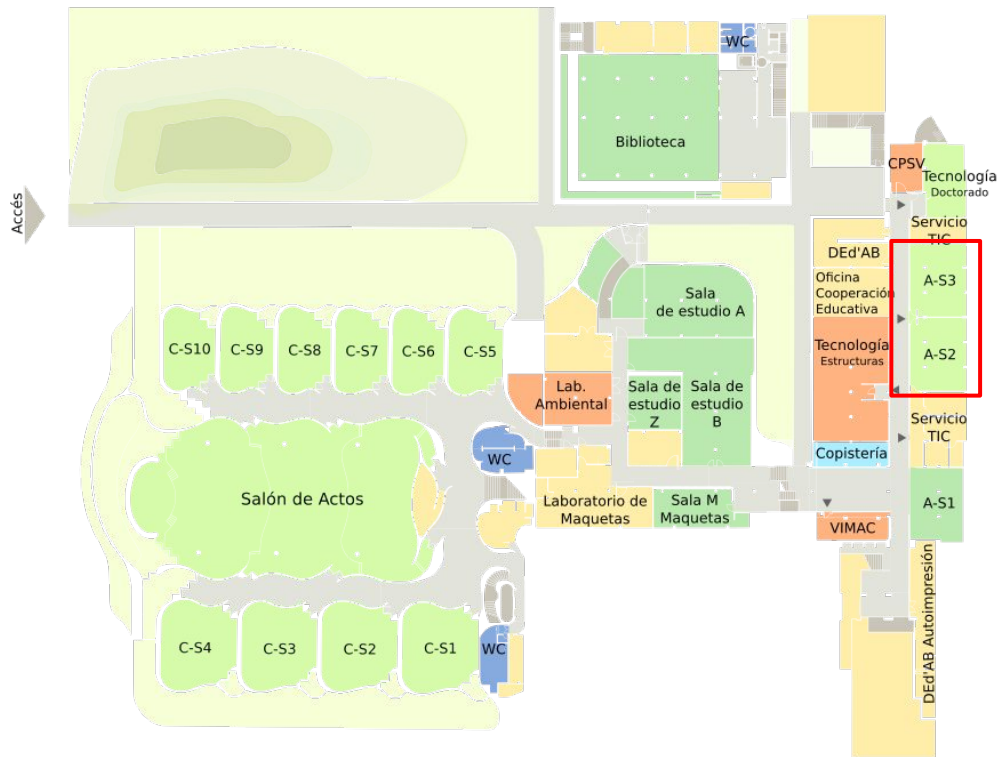

- **20 computers for students** and one for the professor that is connected to the projector system (in each classroom)
- All the computers are connected to the fixed network and have the aforementioned programs installed

Conditions of use:

- Installing additional programs and changing the computer settings are not allowed.
- Connecting or using personal laptops is not allowed.
- Files and documents must be saved on an external USB drive. Anything that has not been saved beforehand is lost when a new session is started and cannot be recovered.
- The basic rules on using the ICT Service must be followed.

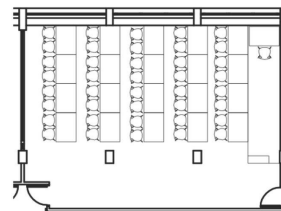

Computer classrooms

Escola Tècnica Superior d'Arquitectura de Barcelona

Aula informàtica: A-S2

Edifici A / Segarra - Planta S1

Ocupació: 40 estudiants

Aforament normatiu: 52 persones*

- No es pot introduir a l'aula mobiliari d'altres aules.
- No es pot treure al passadís ni mobiliari ni maquetes de l'aula.
- Si es canvia la configuració del mobiliari, cal tornar a la configuració original abans de sortir de l'aula.
- Per sol·licitar canvis permanents de mobiliari, contacteu amb el Cap d'Estudis de l'escola.

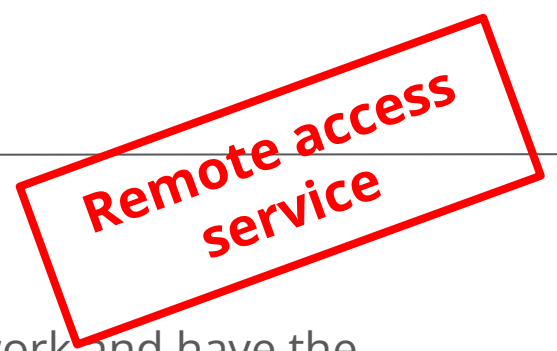

(*) • ZTE-DB Si Código tecnico de la edificación, documento básico, Seguridad en caso de incendio.
• Pla d'autooprotecció ETSAB

Moltes gràcies per la vostra col·laboració!

Practicals room

The practicals room A-S1 is equipped with:

- **31 computers** that are connected to the fixed network and have the aforementioned programs installed
- **3 A3 scanners**
- Projector system, for sporadic teaching

The room is **open to all students** for exercises and practicals on the subjects in official degrees, under the following **conditions of use**:

- Installing additional programs and changing the computer settings are not allowed.
- Files and documents must be saved on an external USB drive. Anything that has not been saved beforehand is lost when a new session is started and cannot be recovered.
- Access to the practicals room is regulated by the timetable of the ICT Service.

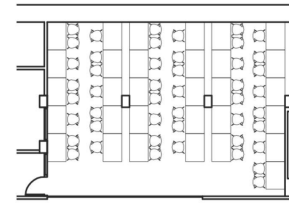

Practicals room

Escola Tècnica Superior d'Arquitectura de Barcelona

Sala d'estudi TIC: A-S1

Edifici A / Segarra - Planta S1

Ocupació: 50 estudiants

Aforament normatiu: 51 persones*

- No es pot introduir a l'aula mobiliari d'altres aules.
- No es pot treure al passadís ni mobiliari ni maquetes de l'aula.
- Si es canvia la configuració del mobiliari, cal tornar a la configuració original abans de sortir de l'aula.

Pla d'autoprotecció ETSAB

Moltes gràcies per la vostra col·laboració!

Remote access to the PCs in the classrooms

The [remote access](#) [in Catalan] service allows remote work on the PCs in the classrooms under the same conditions as one would have on-site, including all the software, particularly the ETSAB's licensed architecture software.

Students can do their academic work without having to physically travel to the School by accessing the PCs in the classrooms. There may be up to **70 simultaneous student users**, outside the hours in which the classrooms are open or occupied.

To access the service you must have:

- a computer with an internet connection
- an active connection to the UPC network via UPCLink
- a program that supports VNC connections

UPC Estudiants app

The [UPC Estudiants app](#) [in Catalan] is a mobile application for students that makes it easy for you to consult useful information on the UPC.

With the application, the UPC provides information and practical resources for students, both general and personalised, related to:

- Mid-semester and final exam marks
- Class timetables
- Notifications on changes in class timetables
- Student card
- Notifications

**Available for
iOS and Android
devices**

+info

Further information is available at: <https://etsab.upc.edu/en/services/it-service>

- [Resource guide for students](#) - Recommendations on the software and hardware that is best for your degree
- [Security tips](#) - Personal computer protection, precautions, etc.
- [FAQs](#) [in Catalan] - Answers to frequently asked questions on remote work and teaching
- [Timetable and calendar](#) of the ICT Service and the practicals room (on-site)
- [Basic rules](#) on using the computer classrooms
