XVII MBLANDARCH INTERNATIONAL WINTERSCHOOL

REGENERATING EUROPEAN STREAMS' TERRITORIES

redefining
the green & blue infraestructure
of Barcelona & Oslo

ACTIVITY

The main objective of the workshop is to study the relationship between Barcelona & Oslo and their closest natural and urban environment according to the term:

CITY - GREEN INFRASTRUCTURE – AGRICULTURE

The workshop will redefine and improve the relationship between both cities and its natural surroundings following the natural riverbeds, with an integrative design approach, by enhancing and improving: biodiversity, physical & ecological connectivity, productivity and urban porosity.

This joint design studio offers a multidisciplinary learning experience in an international workshop between Oslo School of Architecture and Design (AHO) & MBLandArch (ETSAB-UPC) in partnership with the Barcelona Metropolitan Area [AMB]. Students will be exposed to a real project and will benefit of feedback and discussions with AMB professionals currently involved in the project, contributing to the making of actual landscape design strategies.

DATE & PLACE

27th January to 2nd February 2025 (Barcelona, Spain)

3rd to 9th February 2025 (Oslo, Norway)

COORDINATION & TEACHING STAFF

ETSAB-UPC:

Enric Battle, Mario Súñer, Javi Zaldívar (MBLandArch)
