# XVIII MBLANDARCH INTERNATIONAL WINTERSCHOOL

## REGENERATING EUROPEAN STREAMS' TERRITORIES

redifining  
the green & blue infraestructure  
of Barcelona and Athens

### ACTIVITY

The main objective of the workshop is to study the relationship between Barcelona & Athens and their closest natural and urban environment according to the term:

**CITY - GREEN INFRASTRUCTURE – AGRICULTURE**

The workshop will redefine and improve the relationship between both cities and its natural surroundings following the natural riverbeds, with an integrative design approach, by enhancing and improving: biodiversity, physical & ecological connectivity, productivity and urban porosity.

This joint design studio offers a multidisciplinary learning experience in an international workshop between the School of Architecture of the National Technical University of Athens (NTUA) & MBLandArch (ETSAB-UPC) in partnership with the Barcelona Metropolitan Area [AMB]. Students will be exposed to a real project and will benefit of feedback and discussions with AMB professionals currently involved in the project, contributing to the making of actual landscape design strategies.

### DATE & PLACE

26th January to 1st February 2026 (Barcelona, Spain)  
2nd to 8th February 2026 (Athens, Greece)

### COORDINATION & TEACHING STAFF

#### ETSAB-UPC:

Enric Battle, Mario Súñer, Javi Zaldívar, Víctor Díaz-Asensio (MBLandArch)

#### NTUA:
